ESTABLISHED JUNE FIFTH, NINETEEN HUNDRED

VOLUME XXIV—NO. 244. CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, FRIDAY, MARCH 21, 1924. TWO CENTS

CONCESSION MADE BY RAILWAYS COMPANY IN FARE ZONE

PLANS MADE FOR COMMUNITY PICNIC EARLY NEXT JUNE

As a Result of the Efforts of Local Chamber of Commerce, Railways Company To Ask For Authority to Make Change In Rates

WILL BENEFIT THE PUBLIC

Chamber of Commerce to Be Congratulated — At the Meeting of the Board of Directors of Chamber Also Went On Record on Daylight Saving

At the February meeting of the Board of Directors of the Charleroi Chamber of Commerce, the Secretary, James T. Heffran, was directed to again renew the efforts that he had been making to re-open the fare zone question with the Pittsburgh Railways Company as insofar as it relates to Charleroi As the result of Mr. Heffran's efforts the Pittsburgh Railways Company was represented by F. R. Cogswell, the General Traffic Manager, at the March meeting of the Board of Directors held at the Chamber of Commerce rooms last night. After considerable discussion it was agreed by the Pittsburgh Railways Company that it would at once ask the Public Service Commission for authority to change its zone fare from First to Fifth streets. This will be an over-lapping zone and means that people north-bound into Charleroi can ride to Fifth street for the same fare now paid to First street, and people south-bound out of Charleroi can get on the car at Fifth street for the same fare now paid from First street. No change will be made on the other end of the fare zone for the present, but if the present arrangement works out satisfactorily then some time in the future it will be possible to again reopen the question and possibly readjust the fare at the other end of town. The Pittsburgh Railways has made a big concession to Charleroi, and the Chamber of Commerce is to be congratulated on the successful result of its efforts. This change will be made as soon as permission is given by the Public Service Commission.

The matter of a community picnic was taken up by the directors and it was decided that a picnic would be held at Kennywood park on Wednesday, June 11. The idea is in keeping with the practice of other towns in the valley, such as Monessen, Monongahela and Homestead. The idea is to make it a community picnic with the thought of taking all the school children as well as all others in Charleroi, Speers and North Charleroi to Kennywood Special trains for this event will be supplied by the Pennsylvania Railroad. It is the idea of the directors that all places of business declare a holiday on that date and with their clerks and families enjoy a day's outing. Complete arrangements of course have not been made. Final details will be left to committees to work out

At last night's meeting of the

CHICKEN SUPPER.

A chicken supper and bake sale will be given by the Ladies Aid society of St James A M. E. church, Odd Fellows hall, 323 Fallowfield avenue, on Saturday evening, March 22. 245t2*

STAR SECOND BASEMAN IS GOING SOUTH

Joseph J. Fillingham, who cavorted around second base for the Charleroi Independents last year, will leave on Monday of next week for Bartlesville, Oklahoma, where he will play the keystone sack for the team of the city named, which is identified with the Oklahoma Southwestern league. His contract calls for a salary of $300 a month, it is reported.

Mr. Fillingham is one of the best second basemen in semi-professional baseball; a fancy, as well as a graceful and effective fielder, he is also a good batter, and hits consistently, taking the season as a criterion. He is one of the most popular baseball players in this section of the country, and has many well wishers for his future welfare in the southland.

Fourth Banquet Of Church Folk Held Tonight

The fourth banquet and reunion of the season of the Men's Bible class of the First Presbyterian church will be held this evening in the Sunday School room of the church. Reservations have been made for approximately 35 members and the evening promises to be a decidedly successful one The speaker for the occasion, will be the Rev. Jewell, pastor of the Belle Vernon Presbyterian church.

Other talks will be heard by various members of the class, of which Ralph N Hickey is president. There will be a musical entertainment as an added feature, and the Ladies' Aid will serve the banquet The room has been befittingly decorated in preparation.

If you have experienced a seige of unemployment or illness, the Community System will enable you to lighten your burden of pressing accounts. 243t2*

A New Head To Negotiate With Russia

Pekin, March 21—(United Press)—The President today empowered Dr. Wellington Koo, former ambassador in Washington to succeed Foreign Minister Wang as head of the Chinese delegation negotiating with Russia for a treaty to grant diplomatic recognition to that power.

It is reported reliably Russia will consider any plan China may formulate for resumption of the negotiations, considering neither party to blame for the breakdown.

In official circles here it is noted that the high-handed tactics of M Karakhan, head of the Russian delegation, have been abandoned presumably on advices from Moscow.

A CIVIL WAR MAN IS DEAD

Frank Gilmore, formerly of this place, died at the National Military Soldiers' hospital, Dayton, O., on March 20 He was wellknown in this community, and was a river captain to the time when the condition of his health precluded him from following the occupation longer He had been an inmate of the hospital for the past nine years

There survive his widow, Mrs. Frank Gilmore, Webster, Pa; one daughter, Mrs. R. B. Small of Lincoln avenue, Charleroi; and two sons. James and Albert Gilmore of Pittsburgh The McIlcaine's and Bake's families of this place are also relatives

REV. BRICELAND TO SHERADEN

Rev. J. M Briceland, Parker's Landing, Pa., who officiated on several occasions in the Washington Avenue Presbyterian church has been given a unanimous call to the large and influential church of Sheraden.

A committee from the Sheraden church visited Parkers Landing; they also came to Charleroi while the Rev. Briceland was preaching in the local church. He was invited to preach in the Sheraden church, and according to the last issue of the Presbyterian Banner, a call to the divine was immediately extended after the Rev Briceland's visit and sermons given in the Sheraden church.

"PETIT SHOPPE" GETS THE STAMP OF PUBLIC APPROVAL

Regal in its magnificence, a bower of beauty, which will well conserve the business for whic hits formation was made possible, the Meltz-Acton Company. the "Petit Shoppe," 527 Fallowfield avenue, was greeted yesterday, opening day, by a concourse of people who filled the available space of the emporium from early morning until 10 o'clock last night With exclamations of delight, punctuated with admiration of the goods displayed, as the crowd made their purchases, the concourse were a unit that the new store will be among the leaders of its kind as reflects the Monongahela valley.

The Meltz-Acton Company specializes in ladies' and children's ready-to-wear and millinery. and is the only place of its character in Charleroi that is provided with a ladies' rest room

With new show cases and new furnishings, a display of the lines that the company carries wellnigh unparalled, the scene was further augmented by the souvenirs given, 2,000 flowers being distributed among the customers of the establishment by 10 o'clock a. m. n this the beginning of the spring season, [illegible] universally high as reflects the fashion display of the store, and with the opening to judge by as a standard, the success of the company and the "Petit Shoppee" was reflected by the beauties and incidents of the opening. 245t1-*

Train Traffic Re-Routed By A Landslide

Connellsville, March 21—(United Press) All traffic on the south-west branch of the Mononahela devision of the Pennsylvania railroad is completely blocked today by a landslide at Mt. Braddock, 6 miles south of here. Passengers [illegible] being re-routed over the track of the Baltimore and Ohio railroad.

The last slide occurred shortly before 7 o'clock this morning, about 6 tons of rock loosened by thawing fell over the tracks.

Traffic between Uniontown and Greensburg was delayed three hours and later the trains were re-routed over the B O track by way of the Red Stone Junction and Dunbar

Train No. 7101 from Uniontown to Connellsville ran into the landslide and the engine was derailed. No passengers were injured.

Rescue workers are cleaning the slide and tracks will be opened again about 3 o'clock this afternoon according to officials of the railroad.

VARSITY LETTERS GIVEN TO PLAYERS

Chapel Exercises At High School This Morning Are Pleasing And Noteworthy —Football Charms Are Also Given to 33 Men

SILVER CUP IS PRESENTED

Fine Token Won By the Charleroi High School Basketball Aggregation From Canonsburg In the Elimination Series Recently Held

Chapel exercises at the High School building this morning at 8:40 o'clock were particularly pleasing and tended somewhat of an innovation when Varsity letters were awarded to 22 members of the Charleroi High School Football squad and seven members of the Charleroi High School Basketball squad; those winning letters were also given gold football charms, each charm having a block letter appearing on its frontispiece, embellished with the engraving "Season of 1923" and a raised red letter "C"

The second team members were awarded 11 silver football charms, inclusive of the assistant managers. Coach Stephanian made the gifts to each man and also the letter awards.

The loving cup won by the Charleroi High School at Washington, was presented to the schools by Coach Stepanian in behalf of the team in a neat speech. Dr. C. C. Lively made the speech of acceptance and members of the class were called on in turn for remarks. Short talks were given by Miss Bradley and Mr. Paulen of the High School Faculty.

The boys who were awarded gold football charms were:

Walter Shramko, "Doc" Sheppard, Fritz Feehan, Fred Beisencamp, Erwing Chalfant, Dempsey Woodward, Chuck Crabb, Dale Crytzer, Captain Paterlini, Captain Elect O'Brien, John Anthony Jiggers White Joseph Corni, John Hill, Paul Wagner, August Boreninger, Harry Williams, Leslie Morgan, Homer Hazelbaker, Gilbert Parks, Manager Charles Hall and George Johns. The boys to receive silver footballs, were: Beans Chacko, Frank Cantoni, Red Buckholdt, Ronald McKay, Albert Wildman, Chester Dillon, Skeets Watterson, Assistant Managers Ed. Hindmarsh and John Berryman. Those who received gold basketballs were: Jiggers White Captain, Paul Wagner, John Anthony, Boots Hill, Doc Sheppard,

THEY AGREEING TO PAY DAMAGE, BOYS PAROLED

Six of the eight New Eagle boys who were arraigned before Mayor H. T Billick of Monongahela Wednesday evening, on a charge of malicious mischief, confessed to having thrown stones through the windows of the Presbyterian and Christian churches, breaking several valuable panes of glass in each edifice. The boys agreed to pay the damage and after a reprimanding were paroled.

PROMINENT MAN OF DONORA DIES SUDDENLY

E E. McDowell, chief draftsman of the Donora Steel mill and one of the most prominent residents of Donora, died suddenly yesterday of acute dilation of the heart. Mr. McDowell was stricken while in his office. He fell to the floor and lapsing into a state of unconsciousness, died within a few minutes.

Spring Opening at J. W Berryman & Son's. 245t2

Robert L. Barnhart, Of The Palace Theater, Dead Of Pneumonia

Robert Leslie Barnhart, aged 62, a pioneer resident of Charleroi, a prominent business man, owner of the Palace theatre, died last night at 10:30 o'clock at his late home in 410 Fourth street, following a week's illness, due to lobar pneumonia. Apparently in good health, Mr Barnhart was suddenly stricken a week ago yesterday, and has grown steadily worse until his passing last evening

Coming to this community when it was but a large farm in 1890, Mr Barnhart followed the trade of architect and has planned the erection of the greater majority of schools, churches and business houses in Charleroi, as well as many in the Monongahela valley He continued in this line of work until 1905, when he planned and constructed the Palace theatre in McKean avenue, which for the past 19 years he has so successfully conducted under his capable management and ownership. He was also supervising architect of the new First National Bank building.

The deceased was a life member of Charleroi Lodge No 494, B. P O Elks, a life member of the Eagles, and a member of the Royal Arcanum His life membership in the Elks was bestowed upon him as a token of esteem in the untiring efforts and work he put forth in the construction of the club house He supervised, planned and constructed that building. He was a member of the First Presbyterian church

Mr. Barnhart is survived by the following His widow, Mrs. Fannie Barnhart, three children, Mrs. J. L Keaser of Washington avenue, Harry Barnhart of Fallowfield avenue, and Mrs Lillian Horne, at home; four grandchildren; three brothers, Samuel of Los Angeles, Calif., John and Ashford of Pittsburgh, and one sister, Mrs. Ray Campbell of New York.

Announcement of funeral services will be made in tomorrow's issue of the Mail.

One Colored Man Shoots Another; His Wife Is Under Arrest

Hansel Williams, 37 years old, a negro, of Donora, is dead as a result of a bullet wound in his chest, and his wife is under arrest in Verona, Pa., on charges of being implicated in the shooting of Williams. According to police, Williams went to Verona yesterday seeking his wife, who had gone to the moving picture show with one George Edwards, 38, colored The trio got into an argument, and it is alleged Edwards shot Williams, after the latter had drawn a knife

Edwards escaped after the fight, and Allegheny County detectives today are searching for him in Braddock

HUNDREDS ARE AT BERRYMAN'S AT THE EXPO

The annual Spring Exposition at J W Berryman and Son's Big Store, which opened yesterday and will continue for several days, was attended by hundreds of people who know the meaning of the words "Spring Exposition" as applied to Berryman's Store. Everything in the store speaks of Spring. New coats, dresses and hats The Notion department, as well as the dry goods department is overflowing with lovely spring materials, and the ready-to-wear department is filled with spring frocks for street and evening wear. together with coats and suits. The millinery department is filled with hats for both old and young. Gay blouses, gloves and hosiery help to make the new outfit for Spring complete and can be selected from an unusually large line

Your best expectations will be far surpassed when you call at Berryman's Store, and look over the complete line of Spring's most fashionable wearing apparel.

ANNOUNCEMENT.

BELL TELEPHONE COMPANY WANTS TO RAISE RATES

Harrisburg, March 21. — (United Press) —A new tariff increasing the rate for telephone service in the state, effective May 1, will be filed with the Public Service Commission April 1, according to information here today at the division offices of the Bell Telephone Company of Pennsylvania.

While the tariff changes will not be made public until presented to the commission, company officials admitted there would be increases in most classes of service.

BLUE JACKETS GUARD TROPICAL RADIO STATION

Washington, March 21.— (United Press).—The tropical radio station at Tegucigalpa, the capital of Honduras, is now operated and guarded by American bluejackets, so that communication to this country may be maintained, dispatches from the commander of the United States cruiser Milwaukee, to the Navy department, said today. Conditions in Honduras' capital were quiet early today.

PAROLE MAY BE GIVEN A PRISONER

The pardon board at Harrisburg has recommended a parole for Angelo Plenenti of Shire Oaks, serving a 10-year sentence in the Western penitentiary, being convicted in the Washington County courts of manslaughter, his victim being Frank Gigliotti. Plementi shot and killed Gigliotti on July 4, 1918, at Shire Oaks following a quarrel that was the outcome of some coarse jokes at the expense of the young lady to whom Plementi had been paying attentions. The trouble first occurred at a speakeasy, with Plementi, Gigliotti, and the girl present.

Some words passed between the men, but went no farther at the time. Plementi later accompanied the girl home, and was returning, when he was accosted by Gigliotti, who engaged Plementi in a quarrel. During the quarrel. Plementi shot and killed Gigliotti.

A pardon was refused Gaetano Cimicati of Avella, serving from 12 to 20 years for killing a boarder at his home and also his wife. Sam Mazza was the man killed and he had been living with Cimicati. The eternal triangle figured. On the day of the killing Cimicati had returned to Avella after about six weeks absence. He met Mazza on his way home from work and without any words shot and killed him Cimicati then went home, attacked his wife, shot and wounded her and then trampled her to death.

Two other cases from this county heard and in which no decision has been handed down were those of the commonwealth against Mike Vacuca, committed on a charge of robbery with a weapon and commonwealth vs. George Marchett, committed on a charge of felonious entry. The former was mixed up in an affair at a house at Meadowlands. He was accompanied to this house by a man named John Pudruzich, who escaped and was never apprehended. There was some drinking and card playing at this house, during the course of which Pudruzich, aided by Vacuca pulled a gun, held up the crowd, and robbed them. Vacuca is serving from three to 20 years.

Marchett was convicted of entering several houses in Robinson [illegible] and taking money. He was given a sentence of from three to 10 years.

TWO ARE CRITICALLY HURT IN ACCIDENT

Inquiry at the Memorial hospital, Monongahela, this morning, developed that J. E. Cannon, aged 40, of Grindstone, was slightly improved, that there is a chance for his recovery, that theconditions of Mrs. Martin Hughes, also of Grindstone, who is in the Brownsville hospital, remains unchanged that her condition is critical.

These two people were injured, suffering fractured skulls, in an automobile wreck on Peterman hill, the particulars of which, somewhat meagre, were given in yesterday's issue of the Mail.

John Hughes, aged six, son of Mrs. Hughes, received nominal hurts; and Helen Hughes, a daughter of Mrs. Hughes, also received injuries which are not serious.

Martin Hughes, husband of Mrs. Hughes and father of the two children was the only one of the five occupants of the car to escape injury. Complete details of the accident are lacking, but a front tire on the car which was being driven by Cannon, is said to have blown out. Cannon lost control of the machine and it careened to the side of the road and overturned, pinning Cannon and Mrs. Hughes underneath it. Mr. Hughes and his two children were thrown clear of the car.

Other late travelers arrived on the scene a few minutes after the accident happened and immediately offered their services. Mrs. Hughes and children were rushed to the Brownsville hospital and Cannon to the Memorial hospital.

Members of the party had been visiting friends in Bentleyville and had left for their home only a few minutes before the accident occurred.

Notice to Eagles

Owing to the death of Brother R L. Barnhart, the memorial services to have been held at the Palace Theatre, Sunday, March 23 will be held at the Coyle Theatre. Program of services will be published in tomorrow's paper.

QUESTIONS TO H. F. SINCLAIR

BULLETIN.

Washington, March 21.— (United Press).—Harry F. Sinclair today won respite from the Senate Oil committee which had called him to testify. After a heated argument of two hours between the committee and Martin W. Littleton, counsel for Sinclair, the committee postponed the session on Littleton's demand that Sinclair be excused from testifying further. Adjournment was taken until tomorrow when the decision will be made.

Washington, March 21—(United Press)—Harry F. Sinclair, long silent lessee of Teapot Dome, was called before the Senate oil committee today to see if he will volunter any information concerning:

1. His $25,000 "loan" to former Secretary of the Interior Fall from whom he obtained the lease.

2. Rumors that he gave Will Hays and Attorney General Daugherty a large block of oil stock to help make up the $1,000,000 deficit of the Republican party after the last presidential

3. If he had any understanding with Fall and the Standard Oil Company of Indiana about obtaining the lease just as soon as Fall took office.

4. Why he paid off several million dollars for alleged claims to Teapot Dome after the claims had been invalidated and why the books of his corporations mysteriously disappeared.

The general impression of the investigators is that Sinclair will refuse to testify at all on the ground that any of his answers might prejudice his defense of the government suit which has been instituted against him.

Sinclair could,if he desired, clear up every mystery of the tangled investigation and piece together every disjointed story of the leases. He was in Europe when the committee first uncovered "the scandal" and when he leisurely returned the committee permitted him to remain more than a month without testifying.

The law permits that a witness may not be required to give evidence to an investigating committee which might be used against him criminally in the courts.

Fall successfully resorted to this legal right in refusing to testify before the committee.

If Sinclair refuses to give the explanation desired the committee has no resort except to go on with other witnesses.

Will Hays has been subpoened to appear tomorrow to testify regarding the rumors that he received Sinclair stock while manager of the Republican campaign committee.

Neat Apron Dresses
At One Low Price

You'll wonder how we can sell such excellent garments at such a low price. But the larger the purchase, the lower the price—that tells the story! And these comprise our allotment of a purchase of several thousand dozen Apron Dresses for the 475 J. C. Penney Company Stores.

Amoskeag Ginghams and Scout Percales

of good quality are the materials from which these attractive Apron Dresses are made. And they're well made, too, being cut full so that they fit comfortably after they are laundered.

The Styles Illustrated

are displayed for the first time. They show many new ideas in trimmings which are unusually clever. And the colorings are varied enough to suit all. You'll want several of these Apron Dresses when you see them. Don't bother to make any when you can buy them here at a price like this!

NAVARRE INDESTRUCTIBLE PEARLS

Why We Sell

NAVARRE PEARLS

CHARACTER is quite as essential to the commercial institution as to the individual; a reputable merchant is judged by his wares—by the dependability of the merchandise he sells.

We asked for, and secured, the exclusive agency for Navarre Pearls because we knew much of their high character; because we were acquainted with the financial responsibility and unassailable integrity of the firm back of them; because we knew that Navarre Pearls would meet the exacting requirements of our discriminating clientele, and not merely maintain, but enhance our reputation as purveyors of the absolute best.

Pearls are the mode of the moment. Lovely woman, no matter how lovely, may emphasize her charms by wearing Navarre Pearls. Our displays are completely satisfying; your early inspection is cordially invited.

JOHN B. SCHAFER

PLANS MADE FOR COMMUNITY PICNIC

(Continued from Page One)

Board of Directors of the Charleroi Chamber of Commerce action was also taken on the question of Daylight Savings as follows:

Resolved: That the people living in Charleroi and the adjoining towns do not want and do not favor Daylight Savings as recommended by the City of Pittsburgh, and believing the spirit as well as the letter of the law should be observed, therefore recommend to the business men of Charleroi,

That they do not change the hours of doing business, but that the stores and other business houses, or places of work, continue to open and close their places of business on Eastern Standard time as at present.

Models which add the touch of distinction to every woman wearing them at Stewart's Millinery. 245t1

Thrilling Adventure at the Witching Hour

The clock on the dining-room mantelpiece had just struck midnight.

As the last stroke merged into silence the watcher looked up from his meal and listened intently. The fire had died down almost to extinction, and the full moon, shining through the French windows, threw eerie shadows across the deserted room.

A slight sound, hardly discernible to ordinary ears, came from the outside of the window, as if something were scraping on the stonework underneath the window.

Instantly the watcher was on his feet, crouching in the shadow of a big armchair, his head on one side, every sense on the alert.

While he was listening thus the moon disappeared behind a cloud. When it appeared again a shadow was silhouetted against the window; and even as the watcher, his heart palpitating, decried the mysterious appearance, the window slowly began to open noiselessly. Faintly, almost imperceptibly, the opening grew larger, a black shadow silently protruded itself, dropped quietly to the ground, and faded into the darkness of the recess.

There followed a deathly silence, broken only by the faint sound of trees swaying in the night breeze. Suddenly a black shadow detached itself from the darkness around the walls and steadily crossed the path of moonlight near the fireplace.

A slight noise caused [illegible] to turn. As he did so he became aware of two shining green lights glaring unblinkingly at him, about a foot away, from out of the darkness. With a [illegible] he leaped for the [illegible]. The black shadow sprang. A [illegible], a sharp scream of pain—and silence.

Five minutes later the black tomcat left by the way he had entered, the still warm body of the newly-slain mouse in his jaws.—London Answers.

Stone-Age Houses Are Rebuilt on Lake Shore

All visitors to the Lake of Constance in Baden know that on its banks may be found remains of so-called lake dwellings, prehistoric habitations built on a platform supported on piles. In Switzerland and in Austria, where pile dwellings of the same kind have also been discovered, the first reconstruction of these ancient villages was tried. At present reconstructions of a similar kind are being made at Unter-Uhldingen on the Lake of Constance.

Last year a family house and a "men's house" were erected on the ancient piles. Both are imitations of the oldest types of lake dwellings belonging to the Stone age. A third house imitating the later type of the Bronze age is to be built next.

These dwellings are furnished with the various implements and articles of daily use found in the neighborhood and are instructive prehistoric museums on a small scale. It is now planned to reconstruct a cluster of dwellings showing almost a village formation on the Swiss bank of the lake at Ermatingen.—Christian Science Monitor.

Screws Used in Watches

Certain of the screws used in making watches are so tiny that 100,000 of them could be placed in a woman's thimble. These screws are cut by a machine from steel wire that is only four-one-thousandths of an inch in diameter, and as the chips fall it looks as though the operator were simply shaving the wire for his own amusement. No screws can be seen, and yet a screw is made at every third operation. Studied through a microscope, it will be seen that each little finished screw is evenly grooved at the proportion of 260 threads to the inch. It is estimated that a single machine turns out about a million a month. They are polished in wholesale fashion—ten thousand at a time. They would never be finished taken separately.

Modern Duelling

Two men had planted themselves in a field and were about to fight a duel with pistols when the farmer dashed up.

"No duelling here," he declared. "I don't suppose either of you can shoot straight."

They admitted the truth of this.

"Then your shots are apt to go wide and hurt somebody."

"What [illegible] we can't [illegible]? Get another [illegible]."

"[illegible] to be followed," suggested the farmer. "What you want is a tunnel."

His Twin

Two Irishmen met in the street one day.

"Sure I met a man last week, and, bedad, I'd have sworn it was your self."

"And wasn't it?" asked the other.

"Never a bit," replied Pat. "But he was your very image, barrin' he was a thrifle gray. I suppose, now, ye haven't such a thing as a twin brother a few years older than yourself?"

Fair Question

Barrister (to flustered witness)—Now, sir, did you or did you not on the date in question, or at any other time, say to the defendant or any one else that the statement imputed to you and denied by the plaintiff was a matter of no moment or otherwise—answer

Bewildered Witness—Yes or no what?—Stray Stories.

THE NEW HOSPITAL.

At the annual meeting of the directorate of the Charleroi-Monessen hospital held for the purpose of the election of heads for the ensuing years, those present discussed at some length a matter which has been commented upon before—that of the construction of a new hospital building.

Information elicited from the session is to the effect that President John B. Schafer will name a committee from the directorate, who will act in the building's behalf.

Inasmuch as a new structure is necessity to properly care for the injured and the sick; that there is an abundance of acreage from which to select an approved site, it would seem to be wisdom for the citizenry of Charleroi, North Charleroi, and Monessen to respond, and respond liberally, if called upon to aid in the proposed worthy movement.

In this day and age efficiency is demanded, but the best efficiency can only be brought about through proper conditions. If the quarters at the hospital are too congested to care for its patronage, as it is alleged they are; if they are too small to equip it for the latest surgical devices necessary for the conducting of an institution of this character, the need of a new hospital then is obvious.

At the present time, the hospital cannot take care of the demands made upon it; and while the present building was ample at its construction, the mutations of time have brought about conditions which make, according to public sentiment, a new structure necessary.

LAFOLLETTE IS RUNNER-UP

Fargo, N. D., March 21.—(United Press).—Senator LaFollette is runner-up in the North Dakota Republican presidential primary. He outdistanced Senator Hiram Johnson by more than 3,000 votes. President Coolidge won a minority victory over the two Senators, holding a margin over LaFollette of more than 14,000 votes.

With all but 228 of the state's 2,058 precincts counted the vote stood: Coolidge, 47,947.
LaFollette, 34,096.
Johnson, 30,253.

The final count will change this result but little, politicians declare.

Harrison Garnett, the Coolidge man, was chosen Republican national committeeman for the party by an overwhelming vote. R. A. Kinser, his nearest opponent, was beaten more than 2 to 1.

PLAY FOR BENEFIT OF ATHLETICS

This afternoon and evening, the East Bethlehem Township High school will present "The Colonel's Maid," a comedy of southern life in three acts. The music for the occasion will be furnished by the high school orchestra, which is under the direction of Prof. A. B. Benn, supplemented by vocal selections by the Misses Marie and Lillian Kachurek and Messrs. Nelson Hoge and Robert Hawthorne. The play will be given in the Grand theatre, Fredericktown. The proceeds of the play will be used for the benefit of high school athletics.

A WOMAN BRINGS SUIT AGAINST ANOTHER

Sara Berger of Monessen, has brought suit against Annie Gross of Monessen in the sum of $5,000 for the alleged defamation of the former's character. Miss Berger alleges that on March 18 the defendant called her names before a number of persons, which injured her character and reputation.

HAMBONE'S MEDITATIONS

Copyright, 1921 by McClure Newspaper Syndicate.

THE OFFICE CAT

A person who snores is, literally speaking, a sound sleeper.

When a girl runs her hand through your hair it's time to propose or go home.

I am never afaid of a thing I can't avoid.

A man shows mighty poor judgment to help rob a bank or assist in holding up a train unless he can share in the booty.

A BOARDING HOUSE MENU.

Lima, and navy and frijole beans,
Oysters, and lobster, and nice T-Bone steaks,
Cabbage and liver, and cornbread and greens,
All sorts of pies and angel food cakes,

Prunes, squash, and spinach, more beans, succotash,
Pineapple fritters, and chocolate eclairs,
Okra, slumgullion, a mystery called "hash,"
Croquettes, and cherries, and fresh Bartlett pears,
Toothpicks and water, and beets, pickled souse,
Turkey and chicken, I'll tell you they're fine,
Now you know what's served at our boarding house,
Will you go back and read every odd line.

Judge: You are charged with being a deserter, having left your wife. Are the facts of the case true?

Prisoner: No, your honor, I am not a deserter, just a refugee.

"Trying to kiss you," said Gladys, to her bewhiskered lover from Donora, "always makes me feel as if I were beating around the bush."

Adam and Eve and Pinchme, went down to the river to bathe,
Eve and Pinchme were drowned, and we don't give Adam who was saved.

APROPOS.

Salesman (to woman who has been annoying everyone in the store for two hours without buying anything): "Madam, are you shopping here?"

Woman (surprised): "Certainly, what else could I be doing?"

Salesman (exasperated): "Well, madam, I thought perhaps you were taking an inventory."

HOW ABOUT SIXTY.

After all, the world moves in cycles. At the tender age of six the little girl raised her babyish blue eyes and lisps, "Nice mans." At ten she says, "Carry my books," and at sixteen, "I'll ask mother." At twenty it's, "Don't be so slow," and at twenty-five it is "Do call me up." And then again at forty-five she raises blue eyes that would be babyish and lisps, "Nice mans."

Don't Forget to hear Jay Reeves sing "You May Be Fast, but Your Mamma is Going to Slow You Down." at the Elks Minstrel. 245t1

CARD OF THANKS.

We wish to thank our friends and neighbors for their kindness and sympathy shown us during the illness and death of our beloved husband and father. In particular do we wish to thank the Odd Fellows, P. H. C., the Pittsburgh Steel Engineers of Mon... those who sent the beautiful floral tributes and contributed their cars.

245t1 Mrs. McCamey and daughter.

TO BE LET.

6 room modern home.

A Talk With a Charleroi Man

Mr. Fletcher Tells Something of Interest to Charleroi Folks.

There's nothing more convincing than the statement of someone you know and have confidence in. That's why this talk with Mr. Fletcher of Meadow Ave., should be mighty helpful here in Charleroi.

John Fletcher, Sr., miner, 1001 Meadow Ave., says: "Working in the dampness affected my kidneys. Knife-like pains darted through my kidneys when I stooped and to straighten was difficult. Mornings my back was so stiff and sore I ached all over. My kidneys became sluggish and the secretions were unnatural. Doan's Pills from Piper's Pharmacy drove all signs of the trouble from me."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills — the same that Mr. Fletcher had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

"POTTERS FIELD" IS DOOMED

Pittsburgh, March 21. — (United Press).—The "Potters Field" will soon disappear from Pennsylvania as establishment of crematories has eliminated the "poor man's burial plot," according to Herbert W. Lowrie, president of the funeral directors association of Allegheny county.

"There is no 'Potters Field' in Allegheny county and few in the state now," Lowrie said.

"The 'Potters Field' is a misnomer in Pennsylvania. It used to be that only persons who had no money or relatives were buried there and there was more or less odium connected with it.

"The practice now is that persons who die without relatives or money are sent to the morgue and their bodies cremated, thus saving the expense to the county, and humiliation to the name of the person."

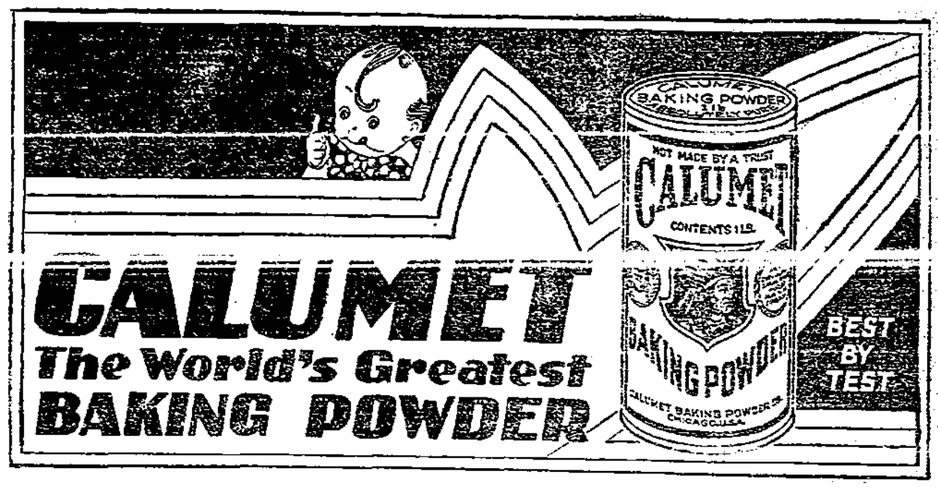
Good bakings are becoming a matter of fact in this country. Years ago, the woman who had success on bake day was rare. Now, most anyone can be proud of their bakings,—the young bride, the school-girl and all.

Calumet, the Economy Baking Powder, has made all this possible, it is sitting on the pantry shelf in millions of homes, that's the secret of baking success—the real reason for uniform and wholesome food.



CALUMET
The World's Greatest
BAKING POWDER

If you are among the few who are not familiar with the results obtained from using Calumet, try it—learn the difference between the results that come from using a perfect leavener and those that are experienced when using unreliable brands.

To follow the directions on the Calumet label is to invite success. You must not use as much as you do of many other kinds. You know Calumet has greater leavening strength than many other brands—it goes farther—makes more bakings—the last spoonful is as good as the first.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

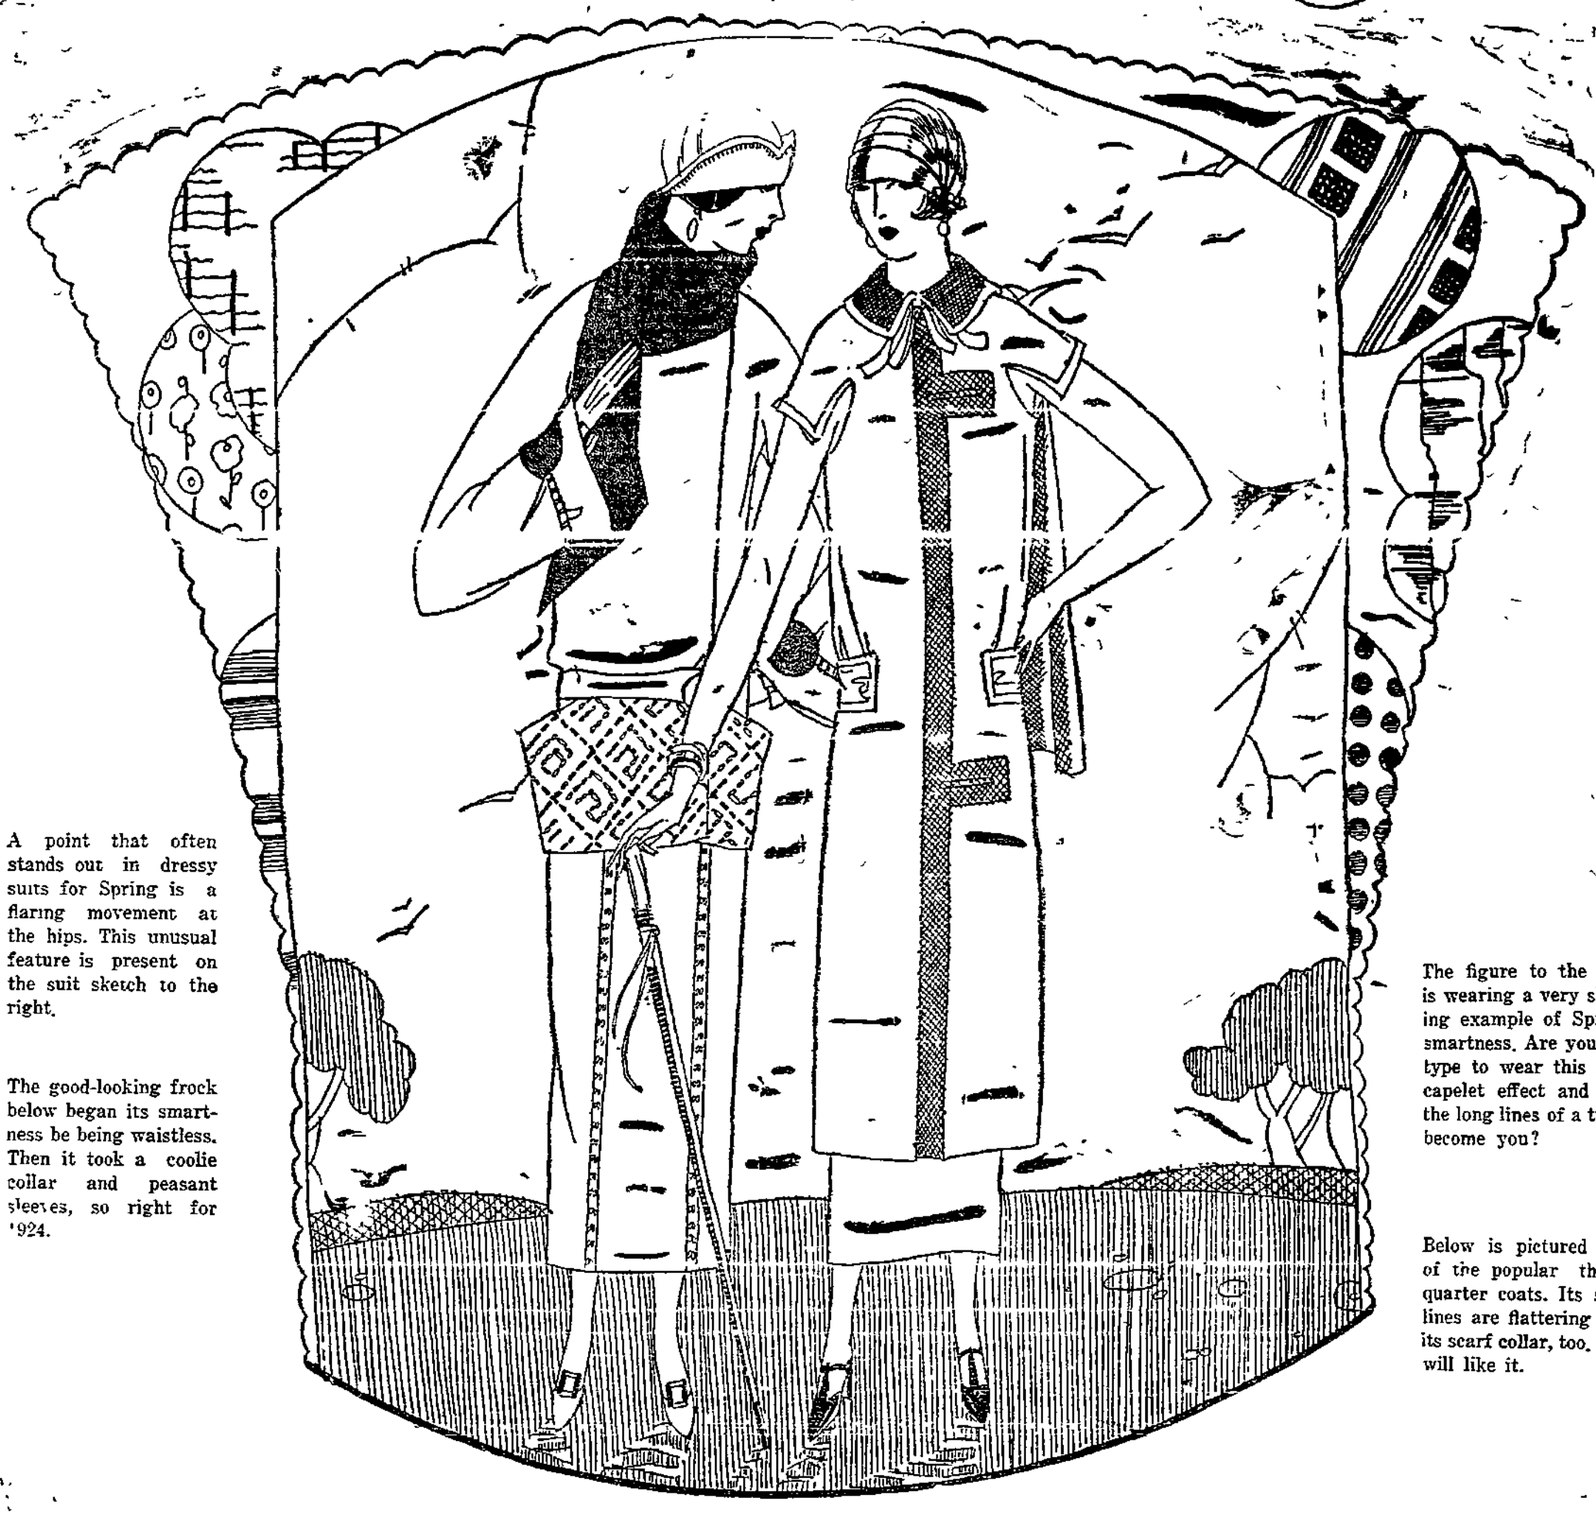
Spring Exposition



Spring's Gay

Blouses

FASHIONABLE women will be seen often in Blouses this Spring, ready for golf in monogrammed flannel ones perhaps; or dressed for afternoon in charming Overblouses of crepe de Chine. Five or six new ideas in collars alone is evidence of the originality you will find here.

Ready for First

Games

FASHION, just full of pleasant thoughts for Spring playing has made some thoroughly delightful Sports Clothes this season. Knitted sweaters, suits and frocks speak youth in their colors and lines. Oriental and Russian notes creep in to make them fascinating. Clever little hats and gay smocks, too, will make all outdoor pastimes doubly pleasant.

Fabrics

At Their Best

WHAT is new in fabrics? Much. First there are woolens that by their suppleness will be easy to work with and make up into very smart looking costumes. Then there are radiant and shimmering silks that help one anticipate very lovely frocks, blouses and skirts. Yes, there is encouragement here for the woman who sews.

Let Spring Enter Your

Home

WHEN every member of the family is getting new clothes should the Home be far behind? Never. For that is where your Spring-dressed friends will gather. Greet them with a new lamp, rug or chair, bright hangings or lovely china. Here are a host of pretty Home things that should join your household this Spring.

All for the

Junior

WITH all winter's fun the children are glad it is Spring. New things to do call for new wardrobes; coats, hats, suits, frocks and underwear for warmer days. Smart, practical clothes for going-away times and for school are in fine assortments here, with every age considered.

A point that often stands out in dressy suits for Spring is a flaring movement at the hips. This unusual feature is present on the suit sketch to the right.

The good-looking frock below began its smartness be being waistless. Then it took a coolie collar and peasant sleeves, so right for '924.

The figure to the left is wearing a very shining example of Spring smartness. Are you the type to wear this new capelet effect and do the long lines of a tunic become you?

Below is pictured one of the popular three-quarter coats. Its slim lines are flattering and its scarf collar, too. You will like it.

Spring's Pert

Neckwear

CLEVER Neckwear this is, where there seems to be no end of varieties. A jabot of lace peeks out from the collection, a long panel collar, a gauntlet set in organdie, and an Eton collar of linen. There is an attractive finish here for every Spring frock in the process of making.

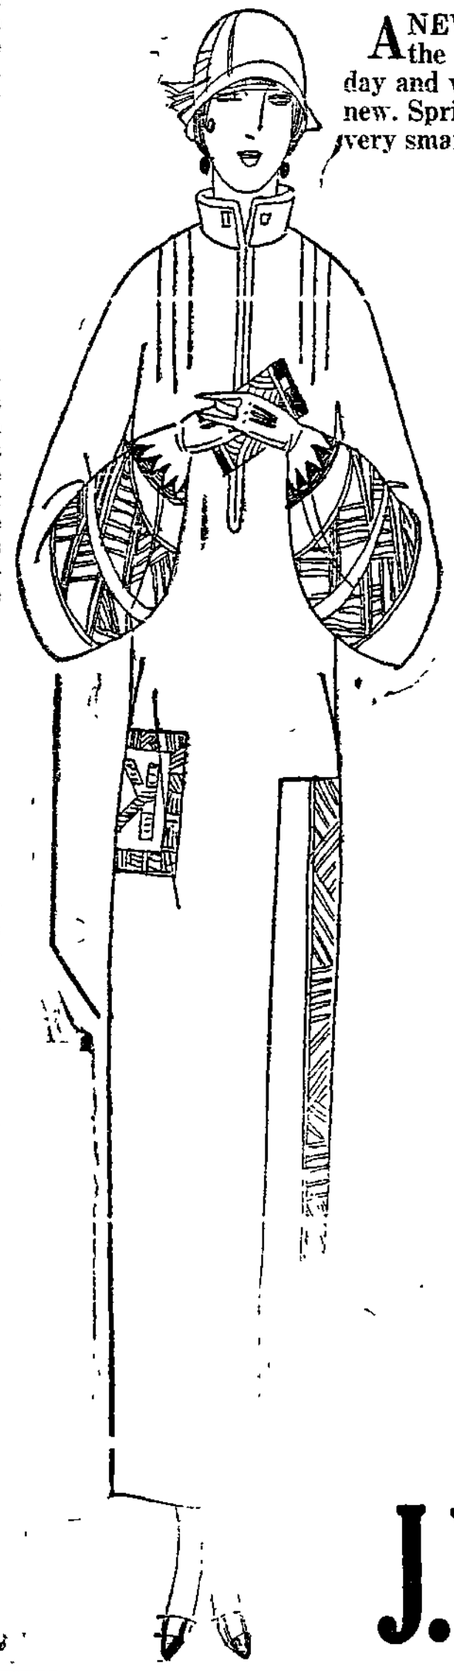
Hosiery

of New Complexions

SHEER Hose are fashion's first word for Spring. When they are as attractively colored as these in such shades as sunset, sahara, skyn and acorn there is no dispute as to their fitness for the smartest wardrobes.

Hose that match the shoes or contrast are equally smart.

A NEW season, new fashions, new clothes—what fun! It is Spring, time for shopping larks and the enjoyment of sparkling new clothes. An interesting Spring Exposition is beginning today and will continue through the week. You will want to visit it and become acquainted with the new. Spring fashion ideas you gather here will reflect themselves in your new wardrobe, make it very smart and very satisfying.



Spring Millinery--It's Difference Delights

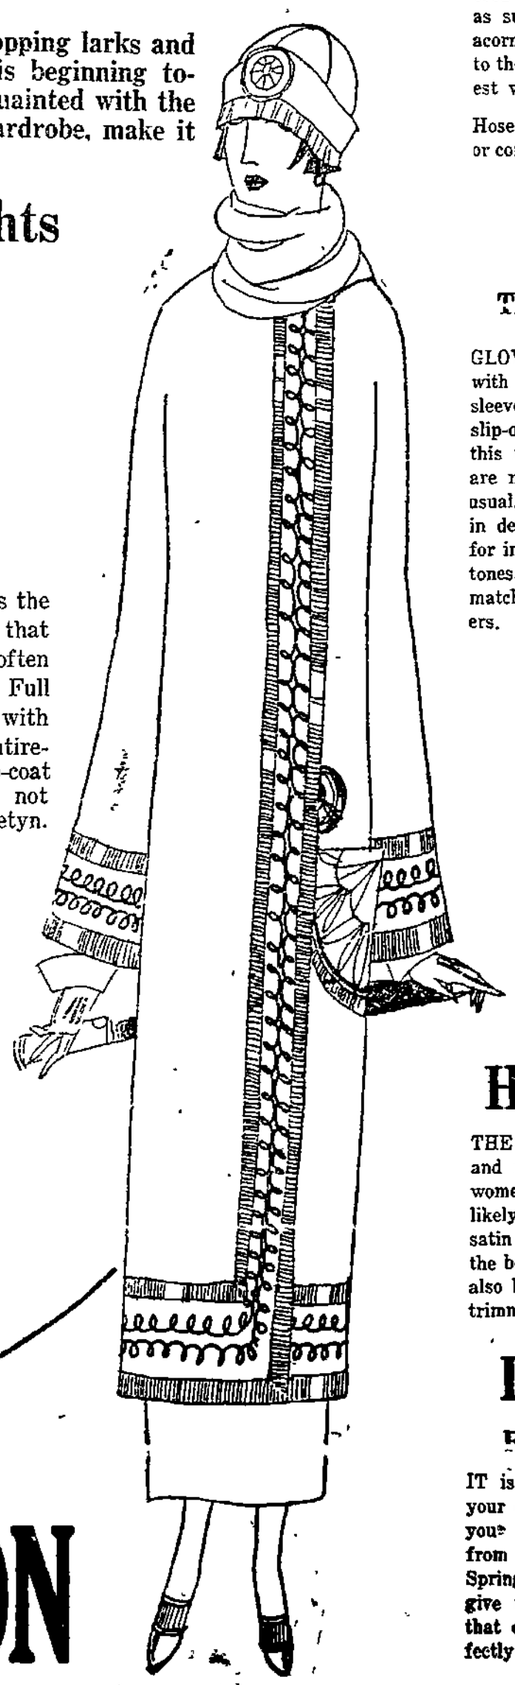
THERE has been gossip in the Spring air about turbans in Hatland, cloches, tricornes, roll brim Hats and those that fit like skullcaps. There has been talk of their trimmings, too. Tinted feathers have been mentioned with fancy pins, embroideries, gleaming satin bows and tiny taffeta roses. Women picture, half decide and then they wait awhile. But no one could resist for long the new hat urge when she was tempted with ideas like these. They take part in the Spring Exposition, to which you are invited. From Miss Sixteen to Madame more matronly there are Hats just to their likings. Gay, trim, dashing or dignified, but with charming newness and fashion trueness.

SUIT STORIES are varied and interesting this Spring. There is a thrill for the person who dotes on tailored clothes, for the boyish, fitted costume in twill or covert has won fashion glory. There is comfort for the sportswoman in the thought of a jaunty Suit of a new supple woolen. And there is surprise in store for everyone concerning the newnesses in three-piece Suits — their three-quarter coats and other smart turns

WRAP WAYS are as numerous as the types to wear them. First is the Coat that goes to the knees, wears no belt and often has a scarf or high standing collar. Full length types, too, are good to look at with sleeve, collar and trimming points entirely new. Wrap fabrics range from top-coat woolens to the sleekest broadcloth, not forgetting flamingo, moire and duvetyn. These models will meet your taste.

FROCK FASHIONS for Spring! And the mode is told in a hundred new ways this season! For the business and pleasures of daytime are long straight Dresses with fullness below the knees, also apron tunic, capelet details and youthful middy types. And you must see the new leg o' mutton sleeve and coolie collar and plaited bib effects. Shorter skirts are noticed too and buttons serve very cleverly as trimmings. These are fashion facts that will impress you on your visit to the Exposition. They merely hint at the style excellence of this frock collection, where you will find garments beyond your best expectations. There is real becomingness in these models that have used charmeen, flannel, alpaca and glossy satins so interestingly.

Every woman will want at least one Frock of a formal nature for Spring, and Exposition Week is just the time to choose it. There is a rainbow of luscious colors in tulle and chiffon Frocks, to flatter fair and dark-haired women.



Gloves

That Say "Style"

GLOVES are short for spring with both long and short-sleeved dresses. There are slip-ons and gauntlets with this new feature—that they are much more simple than usual. But whatever they lack in decoration they make up for in smart colors, beige tones, greys and browns to match Spring's costume leaders.

Veils have a place in the new season fashions. They have no size restrictions but must be cleverly embroidered, whether to grace a tiny cloche or picture hat.

Tete de negre is a favorite Veiling shade.

Fashion-wary

Handbags

THE BAG that shops, teas, and matinees with smart women this Spring is very likely to be a pouch Bag of satin or moire. But within the bounds of fashion it may also be an envelope purse, trimmed with petit point.

Lingerie

Ready! Lovely!

IT is time for replenishing your entire wardrobe and if you will choose Lingerie from this just arrived for Spring, your costumes will give that intimate pleasure that comes from being perfectly groomed.

THE FIRST NATIONAL BANK

CHARLEROI------PA.

The Personal Side

John Jenkins of Fourth street is a business caller in Pittsburgh today.

Mrs. Max Goldsmith of Washington avenue spent yesterday, visiting in Pittsburgh.

W. H. McDowell of Pittsburgh, was a business and social caller in Charleroi yesterday.

L. J. Flickinger of Washington avenue was a business caller in Homestead yesterday.

Miss Elida Lupori of Dunlevy visited at the home of Mrs. Pete Carini of Belle Vernon Wednesday.

Mrs. Anna Rowe of Burgettstown is visiting at the home of Mrs. Margaret Rowe of Shady avenue.

Christopher Brown, Jr., of 526 Fallowfield avenue, spent yesterday transacting business in Pittsburgh.

Mrs. C. A. Fries and son Charles of Fallowfield avenue spent yesterday with relatives in Monongahela.

Mr. and Mrs. J. A. Henderson of Washington avenue attended the funeral services of the former's nephew, James Timmins of Pittsburgh yesterday.

Mrs. C. D. Girdner, Sr., after spending a number of months in Havana, Cuba, and Florida enroute to her home in Chicago, spent Thursday at the home of Mrs. A. F. Castor of Fallowfield avenue.

Mrs. Z M. Robson, Mrs. Sandy Shaw and children, Genevieve and Violet returned to their home in New York City this morning after spending the past two weeks at the home of Mr. and Mrs. Edward Elder of Fallowfield avenue.

William Curtis of Braddock, Grand Patriarch of the Pennsylvania Encampment of the I. O. O. F., paid a fraternal visit to the Charleroi lodge today, and will be in Centerville this evening to install the officers there. A staff from the Charleroi lodge, about 50 in number, will accompany Mr. Curtis to Centerville.

LOVE OF A WOMAN LEADS TO ARREST OF A GANGSTER

Marseilles, France, March 21. — (United Press). — Love of a woman led to the re-arrest of Paul Camilleri, member of the gang which carried out the famous Shattuck jewel robbery in New York in 1922.

Detectives who had been shadowing the man's sweetheart for weeks, pounced on the international bandit here last night, just as he was meeting her.

Camilleri fought savagely but was overpowered.

"It is always women," he said, as police led him to the station.

You will want a Piano for Easter—Why not buy now and take advantage of Schroeder's annual Factory to Home sale and save from $100 to $300. Terms to suit everybody. Sale ends Saturday night. Schroeder Piano Company, 304-306 Fifth street, Charleroi. 245t2

Hear Brady sing, "It Ain't Gonna Rain No Mo" with Local Parodies. Elks Minstrel, March 30, April 1 and 2. 245t1

Spring Exposition at Berryman's. Hundreds of new garments on display. 245t2

Medieval Tiles Beautifully Made.

Tiles made in Cairo and Damascus in medieval times are of such beauty that squares of nine or sixteen are often sold for hundreds of dollars.

Old Mineral Records.

The earliest records of mineralogy are lists of minerals with descriptions that were compiled by Theophrastus four centuries before Christ.

Have Patience.

There are many dirty roads to be crossed in life, but with a little patience you will always be able to find a clean crossing.

Very Likely.

A girl seldom has occasion to cry for help when a young man kisses her—probably because he is able to help himself.

Woman and Her Secret.

A woman may be able to do her own housework, but she always has to get some other woman to help her keep a secret.

Timber in Mines.

The consumption of timber in the mines of the United States has practically doubled within the last twenty years.

Yams Not Sweet Potatoes.

True yams are entirely distinct from sweet potatoes and are much like the Irish potato in composition and food value.

Be Humble Always.

Rightly do those teach who admonish us that we should be the more humble in proportion to our high rank.

Man Ever in Need of Aid.

No degree of knowledge attainable by man is able to set him above the wants of hourly assistance.—Johnson.

In Society's Realm

The Missionary society of the First Baptist church met last evening and organized for the forthcoming year. Mrs. Ben Harris was elected president, Mrs. Frank Chew, secretary and treasurer. Mrs. Harris gave a very interesting reading on Japanese earthquake.

The Get-Together club met at the home of Mrs. Felix Protin of Lincoln avenue yesterday afternoon with agood attendance of members present. Cards and music were the diversions of the evening a delightful time was spent by all. A delicious luncheon was served by the hostess assisted by Mrs. Harry Coates and Mrs. Arthur Caville. The next meeting will be held March 26 at the home of Mrs. Joseph Stech of Lookout avenue.

In the regular bi-monthly meeting, the members of the Emanon club met at the home of Miss Florence Kegg of McKean avenue last evening with every member present with the exception of two. An evening of enjoyment was spent in sewing, games and music and a dainty luncheon was served by the hostess, assisted by Miss Helen Maund. Adjournment was made at a late hour to meet again Thursday, April 3, at the home of Miss May McCarthy, Eighth street.

A large and enthusiastic meeting of the W. B. A. of the Maccabees was held in their lodge room last evening, the main feature of the evening being the initiation of a large class of candidates. Mrs. Mary T. Hardwick of Uniontown, District Deputy officiated and was ably assisted by the valley club officers. The distinguished visitor gave a very interesting talk, which was much enjoyed by all present. The evening was brought to a close with a social time.

The regular monthly meeting of the Missionary society of the First Presbyterian church, which was held last evening at the home of Mrs. J. W. Hunter of Washington avenue, was appropriately opened with devotional exercises led by Mrs. Robert J. Shields. The fifth chapter of the book, "The Trend of the Races," was ably discussed by the leader, Miss Katherine McPherson assisted by Miss Matilda Kline. Following the business session a social hour was enjoyed and the members adjourned.

At the home of Mrs. A. C. Thomas of 802 Fallowfield avenue the members of the Pollyanna society of the Christ Lutheran church met last evenin in the regular monthly meeting with a good attendance of members and several visitors. The early part of the session was devoted to business activities followed by a social hour. A dainty luncheon was served by the hostess assisted by Mrs. Elsie Sutman of Monongahela, Mrs. Chas. Bromwich and Mrs. Walter T. Bromwich. The members then adjourned to meet again in two weeks at the home of Mrs. Robert Coulter, Jr., Lincoln avenue.

Mrs. Albert Brown entertained the Merrymakers at her home in Prospect avenue last evening. During the opening business session the following officers were elected to serve for the ensuing year: Mrs. Leonard Brand, president, Mrs. William Stopp, Jr., secretary, Mrs. William Palfrey, treasurer and Mrs. Albert Brown, social secretary. Sewing and fancy work was then taken up and a pleasant evening was spent in a social way. There was a full attendance of members present. The session was brought to a close by the serving of a delicious luncheon served by the hostess assitsed by Mrs. Stopp and Mrs. Brand. The next meeting will be held at the home of Mrs. Harry Harrington of Washington avenue, Thursday, March 27.

PLAINTIFF GETS $150 VERDICT

On binding instructions, with the question raised by the defense in motion for non-suit reserved. the jury in the case of George H. Wherry against William Cratty, a constable of North Charleroi, returned in favor of the plaintiff for $125.

The action involved a claim for $150. The plaintiff averred the constable unlawfully entered upon the premises of the plaintiff and took therefrom certain goods, which he, the plaintiff, held as bail for a loan made to another party, Clark Hess The goods taken consisted of a victrola and records, a clock and bath mirror. Wherry averred he loaned Hess $150 and these were given to secure him, the plaintiff. It was averred the constable without authority took the goods and turned them over to Hess. Hess never paid back the $150 to Wherry and he looked to the constable for redress.

Coal Tar Is Source of Numerous Products

When William Murdock first made gas from coal in 1792, the slimy black coal tar that remained was merely an objectionable by-product.

Today coal tar is the source of almost countless products, from perfumes to medicines, and from high explosives to delicate dyes. The most recent product to be made from coal tar is a weatherproof paint for metal roofs that will stretch as the roof expands under the sun and shrink as the roof contracts. This new paint, which is made of coal tar, a melted rubber compound and varnish, promises to do away with the cracking of roof paints that has been a source of trouble and expense.

One ton of coal, distilled in a gas retort, produces about twelve gallons of coal tar. Because it was an unavoidable part of gas manufacture, chemists have been experimenting with it for a hundred years. Thus far more than two hundred compounds have been discovered in it, and a history of its products is in large part a history of modern chemistry.

In 1823 napthaline was produced from coal tar, and two years later benzine. Aniline, originally distilled from indigo, and the base of a thousand and one coal-tar dyes, was discovered in 1834, and, four years later, carbolic acid.

The earliest aniline dye, a deep purple, was the result of experiments designed to produce synthetic quinine.—Utility Bulletin.

Columbus First Pirate in American Waters

Christopher Columbus is said to have been the first person who practiced piracy in American waters. It is said that his second voyage was nothing less than an expedition for the sake of plunder. Natives were enslaved, and subjected to the greatest hardships, so that they died in large numbers. A pack of bloodhounds which Columbus brought with him for the purpose, was used to hunt down the poor Indians when they endeavored to escape from the hands of their oppressor, and in every way the island of Haiti, the principal scene of the actions of Columbus, was treated as if its inhabitants had committed a dreadful crime by being in possession of the wealth which the Spaniards desired for themselves.

Queen Isabella was greatly opposed to these cruel and unjust proceedings, and she sent back to their native land about 300 slaves which Columbus had shipped to Spain, and gave positive orders that no more of the inhabitants be enslaved and that they all be treated with moderation and kindness.

According to Frank R. Stockton, in his "Buccaneers and Pirates of Our Coasts," it was because of his alleged atrocities that Columbus was superseded in his command, and sent back to Spain in chains.—Detroit News.

Tests Equipment

It is said that whenever a car wheel breaks on a certain great trunk line the fragments are taken to the company's laboratory and carefully studied so that when the next order for car wheels is made up, if structural weakness caused the accident, it may be guarded against. All the purchases by this railroad of iron, steel, oil, lumber or what not are tested by the chemists it employs and they draw up the requirements to which persons who sell the road supplies must conform. This is not an isolated instance. It illustrates the practicability of applied science and the reliance of acute business men upon the expert opinion that insures them against wasting materials, time and money.

It Makes a Difference

The boy who had scratched his name on the paint of the stationary motorcar had been soundly cuffed by the owner.

Attracted by the loud howling which resulted, a crowd soon gathered, through which the father of the boy pushed his way.

"Who struck my son?" he demanded furiously. "Show me the man!"

The motorist stepped forward. He was six feet two inches in height and forty-nine round the chest.

"I did," he said.

"Served him right, sir," said the man touching his cap. "I'll give him another hiding when I get him home."

Find Statue 5,000 Years Old

A royal statue 5,000 years old is one of the many rare relics unearthed by excavations recently made on the site of Ur in Mesopotamia, the home town of Abraham's ancestors. The statue was dug up in the ruins of a temple dedicated to the moon god, whose worship was observed there for probably 4,000 years. It is a figure of Entemena, king of Lagash, who lived about 2900 B. C. What he looked like is impossible to discover as the head of the statue is missing. Records show the temple to have been rebuilt in 2300 B. C., after many centuries of use. It was remodeled by Nebuchadnezzar and again by Cyrus the Great in the Fifth century B. C. This was probably the last alteration as less than a century later the Persian fire-worshipers destroyed all the temples and images of the ancient idolatrous religion.

Mother's Mistake

"You look worried, old man," said Charlie. "What's the matter?"

"I called on Miss Graham last night," returned Claude, "and no sooner had I entered the house than her mother appeared and demanded to know my intentions."

"That situation must have been rather embarrassing."

"Yes, but that wasn't the worst. Just as the old lady finished speaking, Miss Graham shouted down the stairs:

"Mother, that isn't the one!"

Atmospheric Conditions Warn of Foul Weather

Sometimes when the air is extraordinarily clear and distant objects are visible with unusual sharpness and sounds come from afar with startling distinctness, it is a warning of foul weather. Then it is

When the peacock loudly howls
Soon we'll have both rain and squalls.

Under these atmospheric conditions the songs and cries of birds sound loud to the ear. The barking of dogs, the lowing of cattle, the whistles of locomotives, the honking of motor horns, come from far away, whence sounds are not commonly heard. To the eye the difference of visibility from the ordinary may be likened to the contrast between a view through a pane of ordinary window glass and that through one of plate glass. The reason is that during the occurrence of a warm southerly wind at a moderate height, a condition usually preceding a storm, a stratus cloud is likely to cut off the sun's heating from the ground and so prevent irregularities in heating and also to permit the surface air to remain cool. The result is a homogeneous lower atmosphere through which light and sound waves travel without local disturbance. The sound waves are further intensified at a distance from their source by a phenomenon very common on a quiet day, namely, that air close to the surface is cooler than that a few hundred feet aloft. There is a concentration of the waves. In the warmer air at a moderate height the sound waves travel faster than in the lower colder air, so those that ascend are bent back to earth and combine with those that travel the normal straight course, thus intensifying the sound in the listener's ears.

Star Was Once Called Center of Universe

Alcyone, the brightest star of the Pleiades, equals in brightness the star Zeta. It was at one time fancifully pictured as the center of the universe by the astronomer Madler, but this was merely a speculation for which there is absolutely no foundation. The Pleiades form, in fact, a moving cluster of stars of 200 or more members, and its principal stars are associated with a nebula of vast size. There is no reason to believe that our sun with his family of planets is moving around this or any other center in the universe. It has been estimated that the distance of the Pleiades from the solar system is over 300 light years, or, in other words, that the light from this cluster takes over 300 years to travel to the earth. We see these stars today as they were before the Pilgrim fathers landed in America.—Nature Magazine.

No Smokeless Explosive

The geological survey says that there are no absolutely smokeless explosives. There is always a little vapor present even in compressed air. Smokeless powder is simply smokeless powder giving very much less smoke than black gunpowder. Though smokelessness is the characteristic that has attracted attention to such powders, their superior power is important. While black gunpowder imparted to the projectile an initial velocity of 1,700 feet per second, initial velocities of over 3,000 foot-seconds have been attained with smokeless powders. This has compelled fighting modern battles in open order and at long range and has made necessary an increase in thickness and resistance in the armor of battleships.

Big Job

A clergyman, seeking to introduce some new hymn books, gave the clerk a notice after the sermon. The clerk had a notice of his own to give with reference to baptism of infants. At the close he announced: "All those who have children they wish baptized, please send in their names at once."

The clergyman, who was deaf, assuming that the clerk was giving his notice, arose and said: "And I want to say for the benefit of those who haven't any, that they may be obtained from me any day, between two and four o'clock, the ones with the red backs at 25 cents and the ordinary little ones at 15 cents."

Life, Money and Women

Half the trouble in life comes from too much joy.

Two women may agree, but miracles are never sure.

Matrimony is one way to end uncertainty.

Lend me a dollar and I will wish you had remained my friend.—Richmond Times-Dispatch.

Gratified

At a church conference a speaker made a number of disparaging remarks regarding the universities, finally expressing gratification that he himself had not been corrupted by contact with a college.

"Do I understand that the gentleman is thankful for his ignorance?" asked the chairman.

"Yes," said the other, "if you wish to put it that way."

"Then," continued the chairman, "all I have to say is that you have much to be thankful for."

Too Far Off

[illegible] Mary?"

"It fell off the pedestal, ma'am."

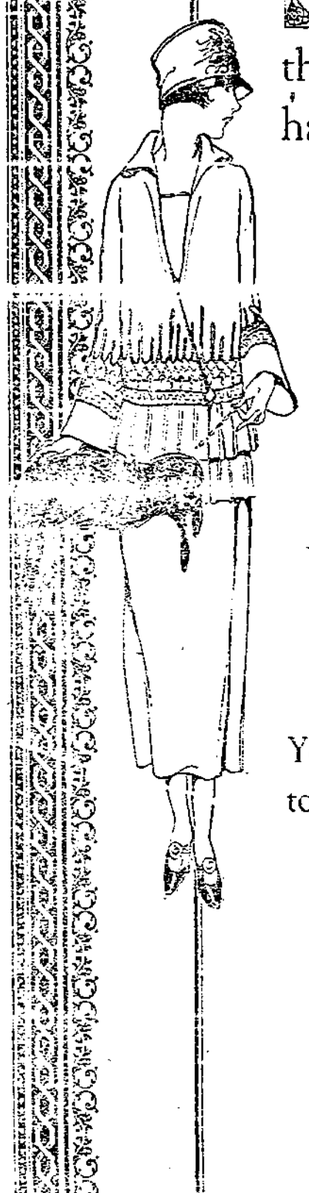
"And how did you upset the pedestal?"

"I never touched it. The chair bumped into it, ma'am."

"Didn't you push the chair, Mary?"

"Oh, no, ma'am. The table did that. All I did was to push the sofa up against the table. Goodness knows, I can't see what's goin' to 'appen so far off."

Continuing Our
FORMAL SPRING OPENING



OUR opening celebration during the past week was one of the most successful events ever held in this city. We have received so many requests that we have decided to continue it one week longer.

You will therefore still have the opportunity of viewing our special opening display of New York's smartest new fashions. Your visit welcomed — no obligation to buy—and we invite your critical comparison of our fine quality and unchallenged values.

Stomach Trouble Yields To Marvelous New Remedy

Users Tell of Health Restored Quickly And Cheaply By Home Treatment — Local Druggists Get Agency

Bilious, Gassy, Bloated Spells Easily Relieved in Many Instances

When food doesn't digest and lies like a lump of lead in your stomach, generating foul gases, bad breath and a bloated short-winded condition it is no wonder you get no good from the food you eat, or that you grow pale, irritable, sleepless and headachy. Constipation, heartburn, loss of appetite, restlessness, stomach catarrh, gastritis, and acute indigestion, and even more serious complications arise eventually if neglected.

Sulac is not in any sense a cure-all. It is not recommended for all the ills that mankind is heir to, but for the troubles and disorders that come from a weak or diseased stomach, it is just about the finest thing that has

cially true at this time of the year, when all of us have been eating heavy and more or less, indigestible hot cakes, meats, pasteries, and other winter foods for several months. We need something to tone up the stomach, blood, and put the whole system in the pink of condition

There is no need to diet and pet your stomach. Try getting your system in the right shape, so you can eat what you want when you want it.

Sulac is sold under a positive guarantee. Give it a fair trial, say a half dozen bottles, and if it does not help you the Druggist from whom you bought it is authorized by the manufacturers to refund your money.

Hundreds of people have found Sulac to be the most modern, powerful and effective, reconstructive, digestive tonic that money can buy Give it a chance to restore your appetite, digestion, strength, vigor, vitality and old time pep. Sound sleep and ability to eat what you want means a lot during the Spring's changeable weather when sickness is everywhere

Sulac is sold by leading druggists, but if you happen to live in a town where it is not on sale, you can secure it direct from the manufacturers The Southern Laboratories, Inc, 59 Eugenia Street, Atlanta, Ga., for $1 00 er bottle, prepaid

Man Quit Trying To Eat Because of Stomach Trouble

Cramps, Pains, Indigestion, So Bad Quit Work, Was Almost Nervous Wreck

TAKES SULAC—NOW O. K.—BACK TO WORK

"This new medicine they are introducing is worth its weight in gold for folks with stomach trouble comlaints," declared a man whose address is given below "I am a carpenter by trade—do lots of climbing on scaffolds, but my stomach got so bad; my nerves so shaky and my whole health was so poor I had to quit work. I was scared blue to do any climbing. I felt hungry now and then but didn't dare to eat much on account of the awful cramps, gas and indigestion attacks. My tongue was coated all the time. I know my breath was bad, but though I tried a lot of remedies nothing did me any good and I was going down hill fast. Finally I started taking this wonderful stuff called Sulac and three bottles gave me a new lease on life. It's a real honest to goodness medicine and I feel one hundred per cent fine. I feel better than I have in four years and am weighing about 190 pounds, working every day and enjoying big meals work and recreation like I wish. Thanks to Sulac I'm a new man and I consider it worth its weight in gold for stomach complaints," continued Mr. Elsear Roy, 16 Puritan Avenue, Worcester, member Local 408, St. Jean the Baptist Society and other organizations.

Anybody can get the same results. Sulac is the very finest, and best remedy money can buy. See directions on each bottle. Look for the name of the nationally known Southern Laboratories, which assures you of purity and quality medicine.

Daughter Made Strong and Well By New Remedy

She Was Frail, Delicate For Years. Now Well and Strong, Her Mother States

A DRUG CLERK TOLD MOTHER ABOUT SULAC

"I hope they advertise Sulac from the housetops until every poor soul has taken it, because it's marvelous" declared a mother who for years was driven almost to distraction by her daughter's continued bad health.

"My daughter was in bad health all her life and we tried everything. Then we [illegible] druggist who is a personal friend of mine, told me about this wonderful Sulac which is helping so many here. I told him I simply must have something that would help stomach, blood and digestion and he told me of scores of customers in town who have been benefited and how since my daughter has taken Sulac and been restored. I feel it my duty to praise it just like neighbors and people everywhere are doing. It gave my daughter a grand appetite the first thing. It helped her stomach so much she relishes and enjoys a meal just like the others at home It put color into her cheeks and I look at her now and can hardly believe she is the same delicate, frail girl of a short time ago I think we should all take the Drug Store's advice and give Sulac a trial Don't take a few doses and stop—give it a fair trial and you will get results and be delighted I'm sure it will help even the people who are real sick," declared Mrs L S Chretien, Barber's Crossing, Worcester, Mass.

Don't allow anyone to continue to remain in a half sick, weak and run down condition particularly at this time of the year when there is so much sickness during changeable wet, cold and disagreeable weather. Do as hundreds of others are doing, take home a bottle of Sulac, give it to the whole family, fortify and increase their disease resistance.

Sulac is sold by Hennings' Drug Store and other high-class druggists.

More Soft Wood Trees Are Now Being Planted

The people of the United States consume twice as much softwood lumber as they do hardwood lumber, according to the New York state college of forestry at Syracuse university. The softwoods are cut off more rapidly because of their better adaptability to man's needs and their lighter weight.

The pines, hemlocks and spruces float easily and this facilitates transportation to the mills. They are hauled by bobsleds or sent by flume or chute to a stream or lake and floated to the mills. Maples, beeches and birches will very often sink, which necessitates artificial means of transportation such as motortrucks, tractors and railroads, or expensive rafting Even where such costly transport is required for softwoods the greater value of the product has made lumbering profitable. But with hardwood this type of logging is too expensive except where the hardwoods are especially fine and the demand is good with a near market.

The dwindling supply of softwood timber is making it more profitable to plant evergreen trees than ever before, says the college. Today many hardwood forests and farm woodlots are being converted to the more valuable softwoods. It often pays on such woodlots to girdle unmerchantable hardwood trees so the undergrowth of softwoods that have been artificially planted or naturally reseeded will not be re- [illegible] hardwoods. By cutting the bark around the hardwood trees, their foliage will disappear and the trees will die thus allowing enough light to fall upon the young softwoods to give them their natural rate of growth In the average forest such elimination of hardwoods allows the coniferous or [illegible] volume of about one-fourth cord annually [illegible] to forty years, depending upon their age This increase in growth will offset the expense of girdling and keep the forest on a profitable basis.

Grand Canyon Supplied With Water by Train

"Water, water, everywhere nor any drop to drink" This famous expression of Coleridge describes quite accurately the situation at Grand Canyon, where an abundance of clear water may be seen rushing down the Colorado river in the depths of the canyon, but beyond reach of visitors and residents of the village itself

All the water used at the canyon is hauled in by the Santa Fe, and is obtained from Jack Smith and Flagstaff springs, which are about nineteen miles north of Flagstaff, Ariz This cold spring water has its origin in the snows at the top of the San Francisco peaks and is absolutely free from contamination It is carried from the springs to a 50,000 000-gallon reservoir about seven miles north of Flagstaff, whence it is conveyed by pipe lines to the station. Steel tank cars of 10,000-gallon capacity each are used in transporting the water from Flagstaff to the canyon, the ordinary needs requiring ten carloads of water daily

This means that the Santa Fe hauls approximately 100 000 gallons of fresh spring water from Flagstaff to Grand Canyon, a distance of 99 miles, each day

Numerous investigations and surveys have been conducted with a view to utilizing the clear water so abundantly available at the bottom of the canyon, but so far no feasible method of doing this has been found—Santa Fe Magazine.

Roads Built 2,000 Years

The Roman empire was intersected by roads, constructed principally between the Second and Fourth centuries after Christ These highways varied in width from eight to fifteen feet, and were almost universally built in straight lines without regard to grade, probably because the use of beasts of burden as the chief means of transport made the preservation of the level an affair of minor importance Soldiers slaves and criminals were employed in the construction of these highways, the durability of which is shown by the fact that, in some cases, they have sustained the traffic of 2 000 years without material injury

The Roman forum is said to have been the point of convergence of 24 roads, which with branches, had a total length of 52 904 Roman miles The Romans are said to have learned the art of road building from the Carthaginians—Adventure Magazine

Black and Green Tea

The difference lies in the process of curing. All varieties of the plant can be made into either green or black tea but some varieties are better suited for making one or the other In the manufacture of green tea the freshly-picked young and tender leaves are subjected to live steam or heated air, or are placed in contact with a hot surface which destroys the oxidizing properties in the leaf After rolling and drying, the cured product gives a green or greenish yellow infusion In the manufacture of black tea, the oxidizing process is done during the withering, which lasts from 12 to 24 hours, and is continued after the withered leaf is rolled by allowing the teas to oxidize or ferment from two to six hours before they are finally dried.

Grasshopper Invasion

According to the American consul at Marseilles, France, there has recently been a remarkable invasion of [illegible] grasshoppers in the region east of the mouth of the Rhone river.

Low-Headed Trees Are Better for Orchards

How to prune pears to the best advantage has occupied the attention of horticulturists at the experiment station at Genera, N. Y., for several years, and certain definite recommendations are now believed to be justified by the results of the station tests. The merits of high and low-headed trees have been compared, and a study made of the effect upon tree growth and fruit production of much and little pruning. Low-headed trees receiving little pruning have proved most satisfactory in all respects, declare the station specialists.

Experiments have been conducted with such well-known varieties as Anjou, Bartlett, Kieffer, Sheldon, Seckel and Lawrence, to study the relative value of high and low heading. Certain of these varieties have also been used in tests of much and little pruning for pears. "With regard to results secured in these experiments, it would seem that low heads were best for all varieties of pears, especially for the tall, upright-growing types," say the station horticulturists. "Low-headed trees produced larger, broader and rather more symmetrical tops than did the high-headed ones. This would be particularly advantageous for unwieldy varieties of the Kieffer type. Careful heading and early training are always desirable.

"It can be safely recommended that all varieties of pears will respond more satisfactorily to little pruning than when severely pruned and thinned out. Little pruning seems to produce rather more symmetrical tops as well as larger bearing areas. Heavy pruning appears to stimulate a greater wood growth, which results in rather bushy growth or sometimes rangy and unwieldy branches and relatively smaller bearing areas."

Ate Soup Too Loudly to Suit the Police

One has to be careful in New York. A ballet master and a doorkeeper of a Russian restaurant were arrested the other night when officers raided the place. They didn't find any liquor, but the dancer and the doorman wore sabers as a part of their uniforms. The police charged them with having concealed weapons. The magistrate held that sabers could hardly be concealed and let them go.

Then the next day Isaac Hirschorn, a waiter, was arrested on a charge of disorderly conduct. The police said he was loud and boisterous while eating soup.

Hirschorn said he wasn't disorderly. That was the way he always ate soup. He was sorry, but he couldn't help it if he did make a noise while soup eating.

Once again the court was lenient. He was discharged with the warning that he had better eat his soup at home and take other courses in restaurants. —New York Letter to the Detroit News.

Ohio Buys Fort St. Clair

With a legislative appropriation of $15,000 for the purpose, the state of Ohio has reclaimed as a state park the site of Fort St. Clair, Indian battleground, a mile west of Eaton. Fort St. Clair was one of the important forts of the Northwest Territory. Indians under Little Turtle and whites under command of Capt. John Adair on November 6, 1792, battled with disastrous results to the palefaces. The Preble County Historical society has erected a seven-ton Preble county bowlder, with bronze tablet, at the fort to the memory of those who fell there in battle more than a century and a quarter ago.

Not Like Enoch Arden

"Hank Henbenny always was a contrary cuss," remarked Tobe Sagg of Sandy Mush. "After he'd been married about three years he left home without any reason that anybody knowed of. After a spell his wife married ag'in, and then a while later he came back and proved he'd never been dead a-tall. His wife got a divorce from her second husband, and was all ready to marry Hank ag'in when he just simply up and died without telling anybody what he was aiming to do."

An Aerial Jitney

A Bavarian inventor is said to have introduced a flying glider of five horsepower that can scoot through the heavens at the rate of 80 miles an hour with only a 15-foot spread. On occasion it can fold its wings and pass through city streets as an auto or it can turn itself into a hydroplane and cross quite a large expanse of roughened water. If some Henry Ford could get this thing into quantity production we should all be buzzards inside of a week.—Los Angeles Times.

Stinginess Rebuked

The beadle was in the habit of showing visitors over the remains of the abbey in the parish. On one occasion he had done so for a lady who, on leaving him in the churchyard, offered him only barren thanks. As she went through the gate the wily man remarked: "Well, ma'am, if you find you've lost your purse when you get home, remember you didn't have it out here."
